

Sims that he was not taking the vehicle because he had started back paying, and that they needed to talk to CIG who opens at 8:00 am to get matters straight so he could pay and Julius Sims could release the vehicle. Julius Sims agreed to wait, but he did not release the vehicle from its position in the air, nor did he turn his heavy fume-emitting diesel engine tow truck off. We waited 2 and a half hours. 18. On said Date, from around 5:30 am (dark) through 8:00am (daylight) when CIG opened, we waited with the vehicle hoisted in the air with his tow truck motor running. By this time the neighbors had started to come out and see the dispute and started recording it also. Plaintiff's Mother, Father and neighbors were all outside witnessing and recording the commotion. 20. At 8:00am Plaintiff called CIG and spoke with Esmeralda Chavez who was in charge of Edricks account. I informed her of what was happening and that I wanted to pay my note so that their agent could release the vehicle and I could leave for work. She refused payment and said I needed to pay the full behind balance owed in order to release the vehicle. Edrick tried to see if he could come up with more than what I had, so I ended the call and he made some quick phone calls and was only able to get another 800 that someone had promised to give me days before. I called her back and the 1200 was refused and she proceeded to tell Plaintiff to get out of (her) vehicle so her agent could tow it in a very unprofessional manner which changed the tone of the whole conversation. I informed her that she sent him a notice to start back making

payments to avoid charge off, which was done. She still continued to refuse payment. 21. Plaintiff informed her that she could not repossess a vehicle that I was paying on, and that Julius Sims had already broken the law by having me up in the air and not releasing the vehicle for almost 4 hours when I told him not to take it in the beginning. Now the neighbors are outside looking at all the commotion. The call ended. Plaintiff told Julius Sims to lower and release the vehicle, that he was not going to turn it over to him because he was able to make my payments and that he waited to compromise, but now he had to leave for work that he was already late for. And that he would settle the issue later. Julius Sims refused and got on the phone with his bosses and Esmeralda Chaves. Julius Sims then returns to Edricks driver window handing me the phone with Esmeralda Chavez on the other end. She continued to scream at me to get out of (her) vehicle so her (Agent) could tow it. Those were her exact words, again Edrick refused and told her Agent to release the vehicle. Edrick handed him back his phone and Julius Sims went back to his tow truck as if to comply. Julius Sims the Repossession Agent returned to the driver's window where Edrick was seated with the phone up to his ear talking to Esmeralda and said could he just give him the vehicle and for him to go and find something else and let this one go. Edrick told him no and once again to release the vehicle so he could leave. He looked at Edrick and said, "So you're not going to get out of the vehicle?" Edrick said no, and he asked again, "So you're not going to get out of the

vehicle?” He asked both times in a do it or else manner, while holding the phone to his ear. After Edrick said no again, he started walking to his tow truck with an angry fast pace, which made Edrick become alert when he connected his movements with the do it or else questions, to trouble brewing. Julius Sims then gets into his tow truck, proceeds to lift the Vehicle up higher and takes off out the driveway as if he punched the gas, which caused a strong Jerk of the vehicle on the tow with Edrick inside. With the fear of losing his life and with his life no longer in his control, because Julius Sims now had taken control of his life, the only thing Edrick could do at the moment was brace and start blowing the horn telling him to stop with his mother and neighbors all screaming stop as well. Realizing his actions, he then stops around the corner and Edrick told him he was calling the police and Julius Sims said he was calling too.(See Exhibit 2) They both called the police at the same time. (see Exhibit 1) Edrick then called Esmeralda Chavez back and informed her of the current situation and that police were called. The police arrived at 10:25am.(see Exhibit 1) They both informed the police of the situation and after hearing both sides the police told him to release the vehicle. Finally after a total of 5 hours of inhaling diesel fumes Julius Sims releases the vehicle. The aforementioned conduct by The Car Source dba Hide And Seek, by and through Julius Sims the Repossession Agent, constituted a “breach of the peace” in

violation of Tex. Bus. & Com. Code §9-609(b)(2). As a result of said breach of the peace, Defendants did not have a present right to take possession of the vehicle.

Response to The Carsources IV. ARGUMENT AND AUTHORITIES

A. The Statute of Limitations Bar Plaintiff's Claims Except TDCA, and Equitable Tolling Does Not Apply Here

Response. This Defense has already been ruled on by this court. See Doc 24. Further, The Cars source provides no new arguments that merits a change of the previous ruling. The arguments The Car source does provide only showed one reason for the statute of limitations to be equitably tolled, plaintiff has provided multiple. Plaintiff would also like to state that it has now been realized that any victims of wrongful repossessions, fraudulent installment contracts from spot deliveries and yoyo sales will more than likely never get their valid claim heard before the courts properly if you go online contacting any of the consumer rights attorneys. It is now clear to Plaintiff that these Advertised Consumer rights attorneys telling victims to contact them are strategically placed by these finance corporations. Once you hire any of these attorneys, they will cooperate with the corporations to make sure your case will not be filed altogether, or have it dismissed by some technical issue during discovery. If a victim does not file Pro-se, they will never get their claim heard. Plaintiffs research of similar claims

like mine shows that this is some kind of ring which causes all these types of claims to get dismissed. Plaintiff is intelligent enough to understand that a lot of people have stock in companies like CIG Financial LLC and this causes cheeks to be turned the other way when violations occur and rulings in their favor.

B. Defendant is Entitled to Summary Judgment on Plaintiff's TDCA claim or any other basis for damages the Plaintiff has alleged.

1. Plaintiff Cannot Demonstrate Actual Damages Under the TDCA

2. Plaintiff's Failure to Timely Respond to Requests for Admissions and other Discovery Preclude His Damages Claims.

Response. The Car Sources claim that Plaintiff did not submit Discovery responses to them was a shock to Plaintiff when he knew perfectly well that they were sent. Once Plaintiff saw that his response was erased from his email and his computer, Plaintiff knew then that my computer had been hacked. I not only remember sending it but also double checking. To add if The Car Source did not File a motion to compel when they realized I did not send a discovery response. By virtue of failing to address a discovery violation when the movant first learns of the issue, a party risks waiving the issue. United States v. Stinson, No. 6:14-cv-1534-Orl-22 TBS, 2016 WL 8488241, at *5 (M.D. Fla. Nov. 22, 2016); see also Coleman, 2015

WL 2449585, at *8 (“[W]aiver principles apply in the discovery context just as they do in other aspects of litigation.”) (citations omitted).

The Car source never mentioned at the Discovery deadline that the response was not sent. This was a tactical move to abuse the discovery process.

Furthermore. The Plaintiff's computer was hacked by defendants. Exhibits 3-13 show how they Used Steno with a link that sent me to a page with the malware link saying an account was created. See Exhibit 3. Exhibit 4 shows me being alerted that steno is phishing. Exhibit 5 now shows the link that was there when the first email is no longer available. Exhibit 8 shows a foreign site that alerts about Microsoft Exchange being hacked and what to look for. Exhibit 6 shows my sign ins on my microsoft account and shows my account being signed in through an sso which is a remote single sign on. Exhibit 7 shows me alerting the school that my email account was hacked through some sso. Exhibit 9 shows the Github codes used to hack into Microsoft accounts, it takes multiple contributors but it can be done. Exhibit 10 show and malicious google update September 18, 2023 that has now been removed once I let them know that I know I was hacked. Exhibit 11 shows my computer is executing remote commands from a remote computer. Exhibit 12 shows that if anything is deleted from my pc somehow it is deleted everywhere. Exhibit 13 shows that the hacker activated something called Hello business remotely on my computer. All this proves Plaintiff was hacked.

CONCLUSION

For these reasons, Plaintiff Edrick Fuller, respectfully requests the Court to deny Defendants The Car Sources Motion for summary judgment.

Respectfully submitted,
s/ Edrick Fuller

Mail - Fuller, Edrick - Outlook

[EXT] Steno has invited you to your Steno dashboard

Steno <concierge@steno.com>

Wed 8/30/2023 6:41 PM

To: Fuller, Edrick <EdrickFuller@my.untDallas.edu>

You don't often get email from concierge@steno.com. [Learn why this is important](#)

Welcome

Hi Edrick,

A Steno Firm Dashboard account has been created for you! You can access it by pressing the "My dashboard" button below:

My dashboard

Your Steno Firm Dashboard will allow you to:

- ☐ Book and manage jobs by case
- ☐ Pay and download invoices
- ☐ Access files from previous jobs including transcripts and videos

Additionally, please respond to this email if you would like to be an Admin for your Firm Dashboard. Admins can:

<https://outlook.office365.com/mail/inbox/id/AAQkADk5NiBhM2RhLWU0MWQlNDE0OS1hOTVILWU0ZWl0ZiEwMDNiYwAQAJNedvXz1aRDvuSGoXJoK%2BY%3D>

1/2

11/21/23, 1:16 PM

Mail - Fuller, Edrick - Outlook

- Invite people to your Firm Dashboard
- Disable user accounts
- View all users associated with your firm

[Learn more about the Admin feature »](#)

Thank you,
Steno Team

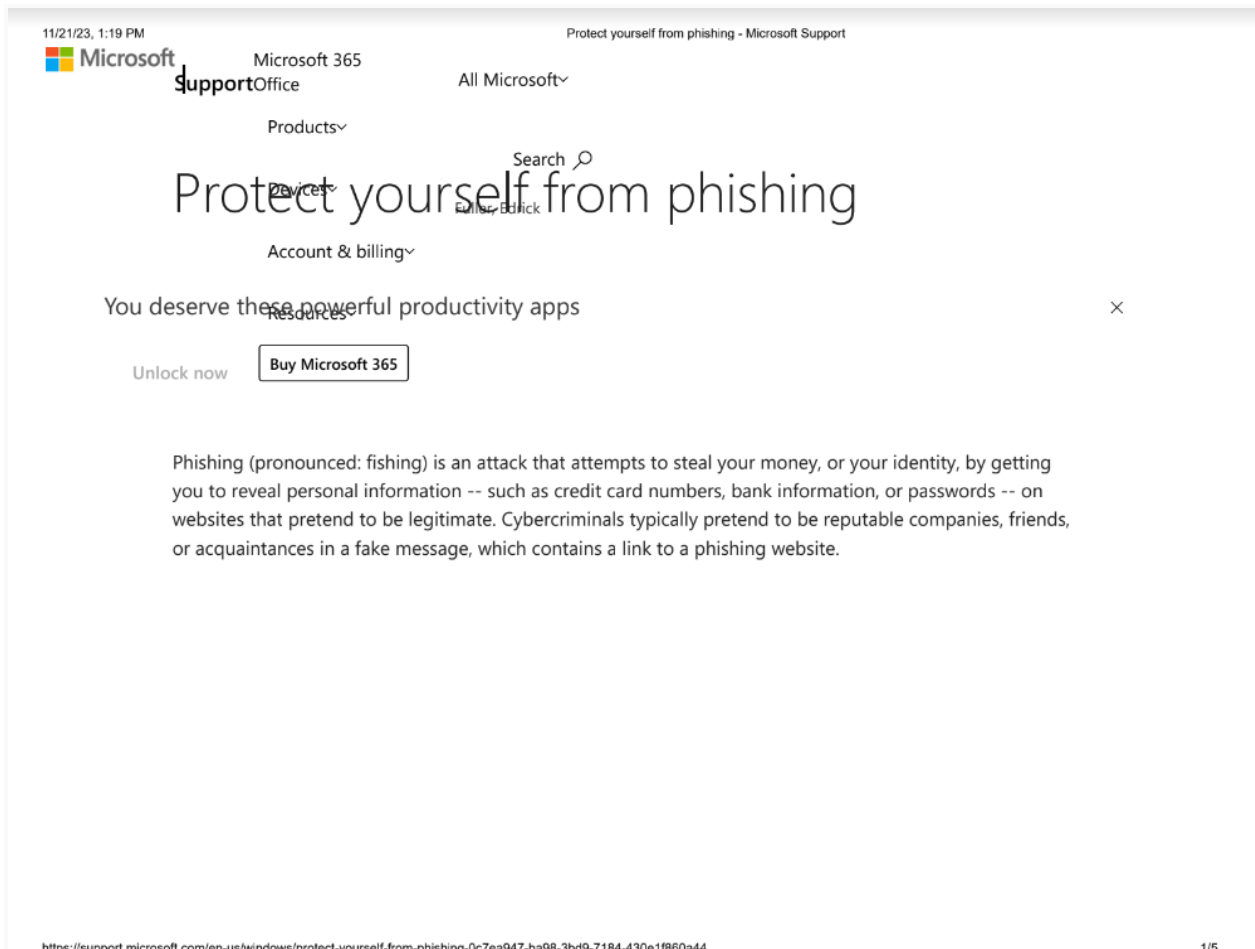

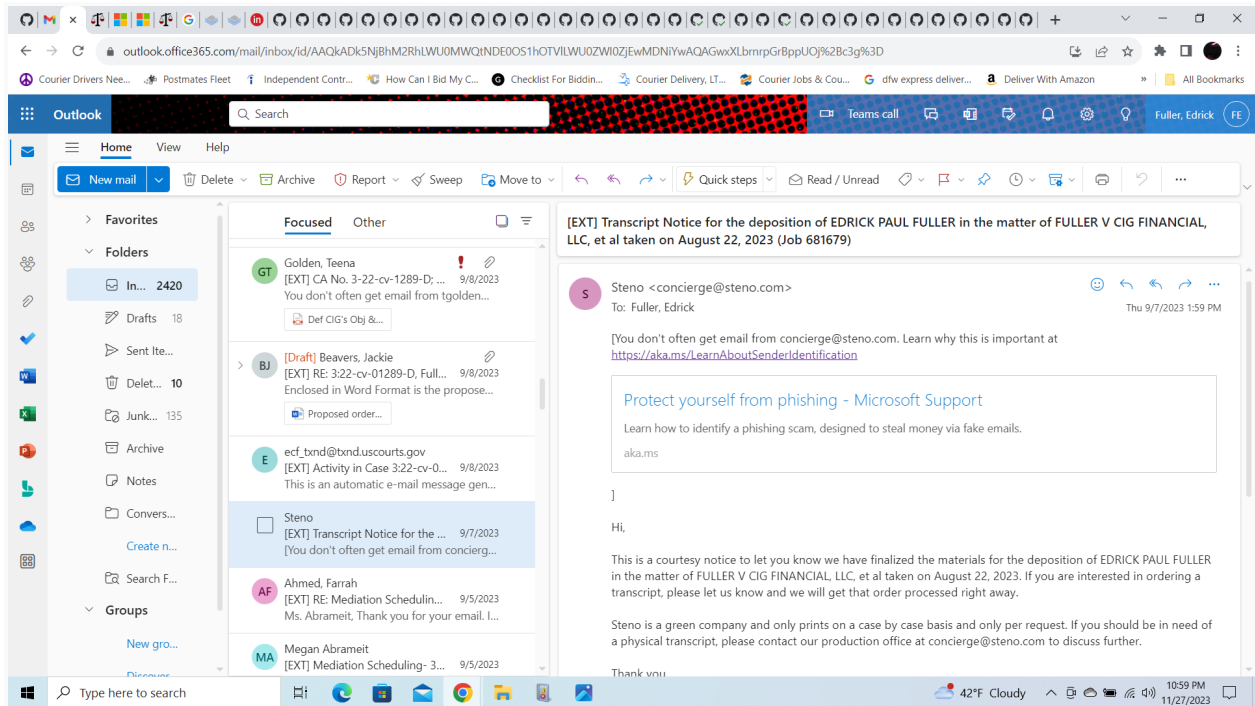

If you're having trouble clicking the "My dashboard" button, please copy and paste the URL below into your browser:

The screenshot shows a web browser window with the URL `steno.com/account/sign-in`. The page has a gradient orange-to-red background. At the top center is the Steno logo, a shield with a scale of justice and the word "STENO" above it. Below the logo is the heading "Sign in to your Steno account". There are two input fields: "Email" and "Password". To the right of the password field is a link that says "Forgot Password?". Below the input fields is a "SIGN IN" button. Underneath that is a "Sign in with Google" button. At the bottom, there is a link for "Don't have an account yet?" and an email address "Email concierge@steno.com". At the very bottom of the page, there are links for "Privacy" and "Terms". The browser's address bar shows several tabs, including "Heath v. Zol...", "www.la-fca...", "Mail - Fuller...", "Steno", "My Sign-In...", "District Vers...", "wrongful rep...", "claim for w...", "Moore v. Ext...", and a plus sign for more tabs. The Windows taskbar at the bottom shows the search bar, several application icons, and the system tray with the date and time "11/21/2023 1:17 PM".

Storm-0558

Wussten Sie, dass mutmaßlich chinesische Akteure einen "MSA-Signingkey" von Microsoft erlangt haben und sich damit ein Access-Token für beliebige Benutzer selbst ausstellen konnten, mit denen dann der Zugriff auf Exchange Online Postfächer von durchaus sensiblen Postfächern möglich war? Doch von von vorne.

- **Analysis of Storm-0558 techniques for unauthorized email access**
<https://aka.ms/storm-0558>
<https://www.microsoft.com/en-us/security/blog/2023/07/14/analysis-of-storm-0558-techniques-for-unauthorized-email-access/>
- **Results of Major Technical Investigations for Storm-0558 Key Acquisition**
<https://msrc.microsoft.com/blog/2023/09/results-of-major-technical-investigations-for-storm-0558-key-acquisition/>

 Lesen Sie dazu auch meine Nachbereitung auf [Storm 0588 Nachbereitung](#)

 Die "Lücke wurde von Microsoft anfangs sehr neutral beschrieben und einige Tage lang haben auch Fachmedien die Tragweite nicht erkannt. Heute würde ich sagen, dass die Lücke sehr kritische war. Microsoft hat Sie nach einigen Tagen gestopft aber es muss sehr grundlegende Fehler in der Sicherheitsstruktur gegeben haben. Ich befürchte, dass wir aber auch in Zukunft immer wieder vergleichbare Lücken sehen werden, weil Menschen einfach Fehler machen.

Betroffen?

Vermutlich sind sie nicht betroffen und wenn, dann sollte Sie Microsoft schon angeschrieben haben. Microsoft schreibt dazu selbst:

Beginning May 15, 2023, Storm-0558 used forged authentication tokens to access user email from approximately 25 organizations, including government agencies and related consumer accounts in the public cloud. No other environment was impacted.
 Quelle: <https://www.microsoft.com/en-us/security/blog/2023/07/14/analysis-of-storm-0558-techniques-for-unauthorized-email-access/>

Anscheinend haben sich die Angreifer gezielt auf wenige interessante Tenants und Postfächer beschränkt. Sie hätten aber mit den Rechten aber auch jedes Postfach eines beliebigen Tenants lesen und sich eventuell sogar zu anderen Apps verbinden können. Allerdings vermute ich, das Microsoft durchaus Zugriff auf Protokolle haben kann, um alle Tenants auf genau diese verdächtigen Zugriffe zu untersuchen.
